

### **Nitrox Schedule**

Books are received before class time. Allow 2-3 days of study time before class. This may take approximately 4-6 hours. Class times can vary and may be scheduled for any day, night or weekend that doesn't conflict with calendar events. Please contact ScubaLessonsJax to schedule a date and time to meet for class.

Meet for class

Course duration is approximately 3-4 hours for certification. Since no dives are required for Nitrox certification, ScubaLessonsJax will need two passport size photos so your paperwork and certification card may be processed immediately upon successful completion of this course.
